## Descripiton of accommodation

Simple design, clean lines and high-quality materials as well as attention to detail characterize the sun-flooded "Roof Top Studio54 Margareten".

The coziness comes here in no way too short. This beautiful 2-room design apartment with open kitchen and an outdoor area of about 14m2 is located on the top floor of a 7-story building and is perfect for a single person or a couple. The quiet oasis "Chillax-Area /Terrazza" is directly accessible from the bedroom as well as from the living room.

This first-class attic apartment in courtyard quiet location is barrier-free easily accessible by elevator. You enter the apartment and are immediately enchanted by this great divided apartment. The apartment has an entrance hall, a small but nice storage room, a toilet with modern sink as well as modern toilet facilities, an open kitchen in the living room with work area, a bedroom with high-quality double bed, a comfortable TV couch, a walk-in closet space towards the bathroom, where a cozy bathtub awaits you after a busy day. A top-loading washing machine and a towel radiator may not be missing in the equipment of course and are also newly acquired.
.
On the extremely spacious outdoor area you can expect a lot of light, a wonderful view into the green interior of the spacious area and above all peace and seclusion from the noise of the street. Here you can retreat from the hustle and bustle of the big city and let your mind wander. For this purpose there are two comfortable seats ready for you. The whispering and rustling of the leaves of the old trees in the courtyard will calm you down and accompany you during your home office activities. Sun worshippers will certainly not miss out here either - the two available loungers make sure of that.

The eat-in kitchen with direct access to the outdoor area is already flooded with sunlight in the morning - perfect for enjoying a leisurely breakfast at the kitchen bar or on the comfortable dining/work table. This very special kitchen, provided in "stainless steel design", invites also in the evening to conjure up a menu or two or to enjoy an aperitif at the kitchenbar. The sun illuminates the two main rooms all day and warms them naturally in winter. The entire apartment is warmed by central heating with new radiators.

Highlights:
- renovated in summer/fall 2022
- perfect connection to the public transport network (subway, bus lines)
- flooded with sunlight - through two large floor-to-ceiling window fronts (3x2 meters each)
