Descripton of accommodation

Our beautiful, quietly located and yet well connected house has a living area of about 220 sqm². Three separate bedrooms, two kitchens and three bathrooms make it possible to use the house as one large unit or two living areas, each with its own entrance doors and garden access (In the pictures marked with apartment 1 and apartment 2). Three shared living areas (large salon with fireplace, biliothek and TV room, dining room with stove and adjoining winter garden) offer plenty of space to relax.

Renovated in recent years, the interior of the house combines a traditional country style with modern to minimalist furnishings. Restrained tones and natural materials create a light, airy living atmosphere. All bathrooms and kitchens have been renovated and are well equipped for everyday use.

The natural garden borders directly on the so-called "Alm" and thus provides a quiet atmosphere. The "Mühlbach", which flows through the garden and can be used as a cooling in the summer by entering, can be crossed via a bridge in the garden. Various seating areas, including a terrace with seating for up to eight people, invite you to linger in the garden.
