Descripton of accommodation

If you are coming to Vienna for work and are looking for modern, centrally located temporary accommodation (one to six months) for the duration of a project, this is the perfect place for you. You will live on the second floor (no elevator) , on the quiet courtyard side of a large apartment building right next to the Naschmarkt. With less than 40 m² of living space, this newly renovated and fully furnished micro apartment offers luxurious living in a small space. Everything is of the highest quality and very tastefully and modernly furnished. This is ensured by the wonderfully well-maintained herringbone wood flooring, the shower room with industrial tiles, the lighting concept from Molto Luce, and the designer furniture from Scandinavian and German designers. Modern art enhances the elegant living character of the rooms, which are up to three meters high. A fully equipped kitchen, luxury bed, washing machine, dryer, TV, Wi-Fi, and even cutlery ensure that you can move in ready to go and in comfort. The front door can be opened via a modern access system using an app. The inventory includes two bicycles.
