Descripton of accommodation

This fully renovated design apartment in Josefstadt was planned and furnished with great care and a fine sense of space, proportions and materials. Every part of the apartment has been carefully considered, creating a home that feels bright, calm, modern and exceptionally comfortable from the moment you enter.

Located on the sixth floor, the apartment has a very special atmosphere. You are right in the heart of Josefstadt, yet pleasantly elevated above the city. The height brings in beautiful views, plenty of natural light and a quiet sense of distance from the busy street life below.

One of the apartment's greatest qualities is its layout. The living and dining area opens towards the front of the building, with an open kitchen and direct access to the spacious south facing terrace. The two separate bedrooms are located at the quiet rear side of the apartment. This clear front and back separation is very comfortable, while the flowing transitions between the rooms make the apartment feel open, generous and larger than expected.

The living area is furnished with great attention to design. The modern kitchen, selected furniture, colours and materials are carefully coordinated and create a calm, harmonious overall impression. Clear lines and thoughtful sightlines give the apartment a warm, urban and very pleasant atmosphere.

The terrace extends the living space outdoors and offers lovely views in different directions. You can see towards Wilhelminenberg on one side and along Josefstädter Straße towards Vienna's historic city centre on the other. From here, you can enjoy the charm of Viennese city life, while the sixth floor location keeps the apartment pleasantly removed from the bustle.

The two bedrooms at the back are especially quiet. They face a green inner area with a small park and many trees, with open views reaching as far as Kahlenberg. Both bedrooms are separate and equipped with their own desk, making the apartment ideal for longer stays, working from home or hosting guests. A practical storage room provides additional space for everyday living.

The renovation was completed in May 2026. The apartment features Miele and Bora kitchen appliances, oak wood flooring, Italian tiles, walnut doors, air conditioning in the three main rooms, mechanical ventilation in the bathroom and storage area, as well as external motorized blinds.

The building itself is very well maintained and has a pleasant, calm and respectful residential atmosphere. The common areas are clean and well kept. A practical additional advantage is the spacious shared laundry room, equipped with a large washing machine and dryer, located directly above the apartment.

The location is exceptional. Josefstadt is one of Vienna's most charming districts and combines urban life with a high quality residential atmosphere. The surrounding area offers many cafés and restaurants, from traditional Viennese coffee houses to a wide range of international cuisine. A park is nearby, and the tram stops practically in front of the building, providing a direct connection to the city centre, which is also easy to reach on foot.

The lively seventh district, Mariahilfer Straße, Vienna's largest shopping street, and the popular Brunnenmarkt with Yppenplatz are also within walking distance. This apartment is ideal for guests who want to experience Vienna in a central, stylish and authentic way, while staying in a modern, quiet and exceptionally comfortable home with a terrace and beautiful views.
